### SGS MINING INDUSTRY GENERIC SAFETY INDUCTION TRAINING COMBINED WITH BMA INDUCTION

Our modern training facilities and experienced instructors ensure that graduates of our course leave equipped with the knowledge, confidence and skills required for safe entry into the mining industry.

#### COURSE OUTLINE

This course combines the current MISC Coal Core Generic and the BMA Induction. The purpose of this course is to introduce the trainee to the legislation, accepted practices and safety procedures that are used both generically and on BMA specific mine sites in order to create and maintain a safe and healthy working environment.

Our course is conducted over two days and includes the following topics:

- Introduction to BMA
- Legislation
- Fitness for work and general safety
- Work hazards and working at heights
- Risk management & isolation
- Emergency procedures & first aid
- Vehicle operations
- Fire fighting
- The environment
- Work processes
- Introduction to BMA Standard Operating Procedures

#### BENEFITS

- Combined course reduces training time from three to two days and is cost effective
- Course is nationally accredited
- Courses are held frequently at most SGS training locations
- Prerequisite qualification to work at most BMA mine sites

#### APPLICATIONS

Graduates of this course will meet with industry requirements for both Generic and BMA Inductions.

#### TECHNICAL ADVANTAGES

Graduates will also receive 2 units of competency, MNMCG1013A-Apply Initial Response First Aid and MNCC1006A-Conduct Local Risk Assessment, in partial completion of the Certificate II in The Mining Industry (MNC04).

#### PREREQUISITES

Course attendees must hold a current Queensland Coal Board Medical and successfully complete a drug and alcohol test prior to course commencement.

#### LEGISLATION AND COMPLIANCE

The course meets the prerequisite requirements of both the Mining Industry Skills Centre and BHP Billiton for working on Queensland Open-Cut Coal Mines.

#### LOCATIONS

Australia wide. Please call to find your closest training facility.

#### SGS OFFERS

SGS provides a variety of industry based and generic OH&S training programs including:

- Mining and Industry Safety Inductions
- Competency Based Training Programs
- OH&S Assessment and Auditing
- OH&S Training and Qualification

#### CONTACT

Our SGS representatives will be happy to discuss your needs.
