

CONFINED SPACE TRAINING

STAX

SGS ENTER AND WORK IN CONFINED SPACES COURSE

Our modern training facilities and experienced instructors ensure that graduates of our course leave equipped with the knowledge, confidence and skills required to enter a confined space and work in accordance with an issued permit.

MSAPMPER205B

COURSE OUTLINE

This nationally accredited one day course (without breathing apparatus) and two day course (with breathing apparatus), is accepted throughout industry and mining within Australia.

The course is compliant with NSW and QLD OH&S regulations and the Australian Standard for Working in a Confined Space – AS/NZS 2865. Complies with BMA SOP QC-PST 290 and covers the following areas:

- Definitions and current legislation
- Duty of care in relation to confined space entry
- Types of confined spaces
- Identifying hazards in a confined space
- Risk management including completing a JSA, Purging/ventilation requirements
- Duties of standby persons
- Confined space equipment requirements
- Gas level stratification and detector operation
- Fire extinguisher requirements
- PPE requirements
- Rescue equipment required
- CPR and the environment
- Work processes

BENEFITS

- Nationally accredited course
- Cost effective one day course
- The one day course covers three units of competence, including, "Work in accordance with an issued permit" and CPR
- Courses are held frequently at the listed SGS locations
- Complies with BMA Standard Operating Procedure 290
- Applicable to all facets of mining and industry

APPLICATIONS

This competency applies to people who are required to enter confined spaces, for the purpose of inspection, maintenance or construction.

TECHNICAL ADVANTAGES

It is expected that all persons entering a confined space and the standby person will be competent to do so and will also be trained in incident response, including CPR.

PREREQUISITES

MSAPMPER200B is a prerequisite to MSAPMPER205B and is covered in the course.

LEGISLATION AND COMPLIANCE

Enter Confined Space meets with the requirements of MSAPMPER205B and is in partial completion of MSA30107 Certificate III in Process Manufacturing. The course covers all aspects relating to AS 2865/ 2009.
