

# VISITOR KIOSK SOFTWARE

## Product Overview

	Deluxe	Premium
<b>Reports</b> Reports generated in MySQL. Reports can be exported as XML, CSV, PDF, MHTML, EXCEL, TIFF & WORD formats. <b>STANDARD REPORTS:</b> <i>Active Visitors Report:</i> View who is on site at any one time.  <i>Historical Attendance Report:</i> View who was on your premises - from what company as well as their sign in & sign out time.	  Request through SGS at cost	
<b>Produce Name Badges</b> Name badges produced at sign in for site visitor to wear. Visitor inputs personal data (name/company/who they are visiting) which is then printed onto the name badge along with their Photo ID.		
<b>Capture Visitor Photo ID's</b> All visitors are presented with the option to have their photo taken to be printed on the name badge and stored in the centralised database.		
<b>Multiple Locations</b> No limit on number of kiosks installed on one <u>site</u> .		
<b>Data stored on centralised database</b> Data stored on database so repeat visitors can simply type in their name and sign in without repeating the induction and site questions. They will be provided with the opportunity to change personal information, take a new photo and be provided with a name badge.		
<b>User Friendly Interface</b> Simple interface allowing for ease of use by all users.		
<b>Free SGS Support Help Desk</b>	  Deluxe comes with <b>1 hour</b> free telephone support p.a	  Premium comes with <b>2 hours</b> free telephone support p.a
<b>Site safety Inductions</b> No need for sign in books. Upload unlimited amount of personalised site safety inductions specific to the site. Simply create in power point and upload via the website. Maximum size 2MB per induction. <i>SGS recommend a maximum of three inductions uploaded at 2MB each to maintain efficient internet speed. Video and audio may also be embedded into the power point files.</i>	  Upload Induction through SGS at cost	
<b>Customised Site Safety Questions</b> Ensure site visitors are aware of your site safety procedures or vital site information. No minimum or maximum on number of questions or possible answers.		
<b>Web Customisation</b> Have control of the required input fields, inductions, questions & other options without having to call SGS support.	  Customise software through SGS at cost
